

DaVita 4th Quarter 2005 Results

PRNewswire-FirstCall
EL SEGUNDO, Calif.

DaVita Inc. , today announced results for the quarter and year ended December 31, 2005. Income from continuing operations for the three months and year ended December 31, 2005, was \$56.4 million and \$207.4 million, or \$0.54 and \$1.99 per share, respectively.

(Logo: <http://www.newscom.com/cgi-bin/prnh/20020729/DAVITALOGO>)

On October 5, 2005, we completed our acquisition of Gambro Healthcare. The operating results of Gambro Healthcare are included in our operating results effective October 1, 2005. The operating results of the historical DaVita centers divested in connection with the acquisition are reflected as discontinued operations in our consolidated financial statements for all periods presented. Net income, including discontinued operations was \$64.1 million and \$228.6 million, or \$0.61 and \$2.20 per share, respectively.

Financial and operating highlights include:

- Cash Flow: Operating cash flow for the three months ended December 31, 2005 was \$183 million and free cash flow was \$152 million. For the year ended December 31, 2005 operating cash flow was \$441 million and free cash flow was \$378 million, excluding the tax benefit from stock option exercises and the after-tax benefit of Medicare lab recoveries related to prior years' services. Including those items, the year ended operating cash flow was \$486 million and free cash flow was \$422 million.
- Operating Income: Operating income for the three months and year ended December 31, 2005, was \$158.8 million and \$465.4 million, respectively
- Volume: Total treatments for the fourth quarter were 3,498,231 or 44,281 treatments per day. The acquisition of Gambro Healthcare contributed 1,528,295 total treatments. Non-acquired treatment growth in the quarter was 2.8%, which was negatively impacted by the closure of 8 centers due to hurricane Katrina.
- Debt Expense: The increase in debt expense in the fourth quarter was due to the additional borrowings to fund the Gambro Healthcare acquisition, \$2.8 million of non-cash deferred financing cost amortization and a \$2.8 million interest payment to Gambro, Inc. as part of the purchase.
- Effective Tax Rate: The effective annual income tax rate for 2005 was 37.4%. We expect the annual effective tax rate for 2006 to be within a range of 39% - 40%.
- Center Activity: As of December 31, 2005, we operated or provided administrative services at 1,233 outpatient centers serving approximately 96,000 patients. During the fourth quarter, the acquisition of Gambro Healthcare resulted in a net increase of 492 centers after divestitures, and we opened 13 new centers and acquired 12 independent centers. Additionally, we closed or indefinitely shut down 8 centers related to hurricane Katrina.

Outlook

We are revising our 2006 operating income guidance. Operating income is now projected to be in the \$630-700 million range before the impact of FASB No. 123R related to stock option expensing. Our previous guidance was for operating income to be in the \$600 - 670 million range. These projections and the underlying assumptions involve significant risks and uncertainties, including those described below and actual results may vary significantly from these current projections.

DaVita will be holding a conference call to discuss its fourth quarter and year end results for 2005 on February 15, 2006, at 12:00 PM Eastern Time. The dial in number is 800-399-4406. A replay of the conference call will be available on DaVita's official web page, www.davita.com, for the following 30 days.

This release contains forward-looking statements, including statements related to our 2006 operating results. Factors which could impact future results include the uncertainties associated with governmental regulations, general economic and other market conditions, acquisitions and the risk factors set forth in the Company's SEC filings, including its Form 10-Q for the quarter ended September 30, 2005. The forward-looking statements should be considered in light of these risks and uncertainties.

These risks and uncertainties include those relating to:

- the concentration of profits generated from preferred provider organizations (PPO) and private indemnity patients,
- possible reductions in private and government payment rates,
- changes in pharmaceutical practice patterns, payment policies, or pharmaceutical pricing,
- our ability to maintain contracts with physician medical directors,
- legal compliance risks, including our continued compliance with complex government regulations and the ongoing review by the U.S. Attorney's Office for the Eastern District of Pennsylvania and the OIG, the subpoena from the U.S. Attorney's Office for the Eastern District of New York, the subpoena from the U.S. Attorney's Office for the Eastern District of Missouri and Gambro Healthcare's compliance with its corporate integrity agreement, and
- our ability to integrate the acquisition of Gambro Healthcare, including its billing and collection operations.

We undertake no obligation to update or revise any forward-looking statements, whether as a result of changes in underlying factors, new information, future events or otherwise.

This release contains non-GAAP financial measures. For reconciliations of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the attached reconciliation schedules.

(dollars in thousands)

Note 1: Calculation of the Leverage Ratio

Under the Company's credit agreement that was effective on October 5, 2005, the leverage ratio is defined as all funded debt plus the face amount of all letters of credit issued, minus cash and cash equivalents, divided by consolidated "EBITDA". The leverage ratio determines the interest rate margin payable by the Company under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The following Leverage Ratio was calculated using "Consolidated EBITDA" as defined in the Credit Agreement, except that pro forma incremental "EBITDA" relating to routine acquisitions is included in the calculation of "EBITDA" under the Credit Agreement. Such calculation is based on the last twelve-months of Consolidated "EBITDA", pro forma for the Gambro Healthcare acquisition and related divestitures.

	Dec. 31, 2005
Income from continuing operations	\$230,296
Debt expense	272,311
Refinancing charges	8,170
Income taxes	137,589
Depreciation and amortization	169,183
Minority interests and equity income, net	26,012
Swap valuation gain	(4,548)
Stock compensation expense	8,614
"Consolidated EBITDA" as materially defined in the credit agreement	\$847,627

	Dec. 31, 2005
Total debt	\$4,157,209
Letters of credit issued	48,404
	4,205,613
Less: cash and cash equivalents	(431,811)
Consolidated net debt	\$3,773,802
Last twelve months "Consolidated EBITDA" as materially defined in the credit agreement	\$847,627
Leverage ratio	4.45x

In accordance with the Company's Credit Agreement, the Company's leverage ratio can not currently exceed 6.25 to 1.0. As of December 31, 2005, the Company was in compliance with its Credit Agreement.

4. Free cash flow and free cash flow, excluding Medicare lab recoveries related to prior years' services, and tax benefit from stock option

exercises:

Free cash flow represents net cash provided by operating activities less non-development capital expenditures. We believe free cash flow is a useful adjunct to cash flow from operating activities and other measurements under generally accepted accounting principles in the United States since it is a meaningful measure of our ability to fund acquisition and development activities and meet our debt service requirements. Free cash flow is not a measure of financial performance under generally accepted accounting principles in the United States and should not be considered as an alternative to cash flows from operating, investing or financing activities as an indicator of cash flows or as a measure of liquidity.
