This press release includes non-GAAP financial measures, which we believe provide useful information to investors by excluding certain nonrecurring expenses and prior period recoveries and by allowing consistency and comparability in our financial reporting to prior periods for which these non- GAAP measures were previously reported. These measures should be considered in addition to results prepared in accordance with GAAP, but are not a substitute for or superior to GAAP results. Included in this press release is a reconciliation of these non-GAAP measures to the most comparable GAAP financial measures.

This release also contains forward-looking statements. Factors which could impact future results include the uncertainties associated with governmental regulation, general economic and other market conditions, and the risk factors set forth in the Company's SEC filings, including its Form 10-K for the year ended December 31, 2002. The forward-looking statements should be considered in light of these risks and uncertainties. These risks include those relating to:

- possible reductions in private mix and private and government reimbursement rates,
- the concentration of profits generated from PPO and private indemnity patients and from ancillary services including the administration of pharmaceuticals,
- changes in pharmaceutical practice patterns or reimbursement policies, the ongoing review of the Company's Florida laboratory subsidiary by its Medicare carrier and the Department of Justice,
- the ongoing review by the US Attorney's Office and HHS Office of Inspector General in Philadelphia and
- the Company's ability to maintain contracts with physician medical directors.
