

DaVita 4th Quarter 2006 Results

PRNewswire-FirstCall
EL SEGUNDO, Calif.

DaVita Inc. , today announced results for the quarter and year ended December 31, 2006. Income from continuing operations for the three months ended December 31, 2006 was \$74.1 million, or \$0.70 per share, as compared with \$56.4 million, or \$0.54 per share, for the same period of 2005. Income from continuing operations for the three months ended December 31, 2006 included incremental after-tax stock-based compensation expense of \$4.5 million, or \$0.04 per share, related to SFAS No. 123@.

(Logo: <http://www.newscom.com/cgi-bin/prnh/20020729/DAVITALOGO>)

Income from continuing operations for the year ended December 31, 2006, excluding the valuation gain on the Company's Product Supply Agreement with Gambro Renal Products was \$266.1 million, or \$2.52 per share, as compared to income from continuing operations of \$207.4 million, or \$1.99 per share, for the same period of 2005. Income from continuing operations for the year ended December 31, 2006 included incremental after-tax stock-based compensation expense of \$14.2 million or \$0.12 per share, related to SFAS No. 123@.

Income from continuing operations for the year ended December 31, 2006, including the valuation gain on the Product Supply Agreement was \$289.3 million, or \$2.73 per share.

Financial and operating highlights include:

- Cash Flow: For the year ended December 31, 2006 operating cash flow was \$605 million and free cash flow was \$496 million, in each case excluding an \$85 million income tax payment associated with the divestiture of centers in conjunction with the Gambro Healthcare acquisition. Including this item, operating cash flow for the year ended December 31, 2006 was \$520 million and free cash flow was \$410 million.
- Operating Income: Operating income for the three months ended December 31, 2006 was \$189 million. Operating income for the year ended December 31, 2006, excluding the pre-tax valuation gain on the Product Supply Agreement of approximately \$38 million, was \$701 million.
- Volume: Total treatments for the fourth quarter of 2006 were 3,723,198 or 47,369 treatments per day. Non-acquired treatment growth in the quarter was 5.5% over the prior year's fourth quarter.
- Center Activity: As of December 31, 2006, we operated or provided administrative services at 1,300 outpatient dialysis centers serving approximately 103,000 patients, which includes 34 third-party owned centers serving approximately 2,850 patients. During the fourth quarter of 2006 we acquired 7 centers, including two centers in which we previously held a minority interest, opened 26 new centers, provided administrative services to one additional center and closed one center.
- Effective Tax Rate: The effective annual income tax rate for 2006 from continuing operations was 39.2%. We currently expect the annual effective tax rate for 2007 to be in the range of 39.5% - 40.0%.

Outlook

We are revising our 2007 operating income guidance: Operating income is now projected to be in the range of \$700-\$760 million. Our previous guidance was for operating income to be in the range of \$680-\$750 million. These projections and the underlying assumptions involve significant risks and uncertainties, including those described below and actual results may vary significantly from these current projections.

DaVita will be holding a conference call to discuss its results for the fourth quarter and year ended December 31, 2006 on February 14, 2007 at noon Eastern Time. The dial in number is (800)-399-4406. A replay of the conference call will be available on DaVita's official web page, www.davita.com, for the following 30 days.

This release contains forward-looking statements, including statements related to our 2007 operating results. Factors which

could impact future results include the uncertainties associated with governmental regulations, general economic and other market conditions, accounting estimates and the risk factors set forth in the Company's SEC filings, including its Form 10-Q for the quarter ended September 30, 2006. The forward-looking statements should be considered in light of these risks and uncertainties.

These risks and uncertainties include those relating to:

- the concentration of profits generated from commercial payor plans,
- possible reductions in private and government payment rates,
- changes in pharmaceutical practice patterns, payment policies, or pharmaceutical pricing,
- our ability to maintain contracts with physician medical directors,
- legal compliance risks, including our continued compliance with complex government regulations and the subpoena from the U.S. Attorney's Office for the Eastern District of New York, the subpoenas from the U.S. Attorney's Office for the Eastern District of Missouri and DVA Renal Healthcare's compliance with its corporate integrity agreement,
- our ability to complete and integrate acquisitions of businesses, and
- the successful integration of DVA Renal Healthcare, including its billing and collection operations.

We undertake no obligation to update or revise any forward-looking statements, whether as a result of changes in underlying factors, new information, future events or otherwise.

This release contains non-GAAP financial measures. For reconciliations of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the attached reconciliation schedules.

Note 1: Calculation of the Leverage Ratio

Under the Company's current Senior Secured Credit Facilities (Credit Agreement), the leverage ratio is defined as all funded debt plus the face amount of all letters of credit issued, minus cash and cash equivalents, divided by "Consolidated EBITDA". The leverage ratio determines the interest rate margin payable by the Company under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The following leverage ratio was calculated using "Consolidated EBITDA" as defined in the Credit Agreement. The calculation below is based on the last twelve- months of "Consolidated EBITDA", pro forma for the routine acquisitions that occurred during the period. The Company's management believes that the presentation of "Consolidated EBITDA" is useful to investors to enhance their understanding of the Company's leverage ratio under its Credit Agreement.

 RECONCILIATIONS FOR NON-GAAP MEASURES
 (unaudited)
 (dollars in thousands)

1. Income from continuing operations and net income excluding the valuation gain on the Product Supply Agreement:

We believe that income from continuing operations and net income excluding the valuation gain on the Product Supply Agreement enhances a user's understanding of our normal income from continuing operations and net income for these periods by providing a measure that is more meaningful because it excludes a non-recurring non-cash item that resulted from an amendment of the Product Supply Agreement and accordingly is more comparable to prior periods and indicative of consistent income from continuing operations and net income items. This measure is not a measure of financial performance under United States generally accepted accounting principles and should not be considered as an alternative to income from continuing operations and net income.

2. Operating income excluding the pre-tax valuation gain on the Product Supply Agreement:

We believe that operating income excluding the valuation gain on the Product Supply Agreement enhances a user's understanding of our normal operating income for these periods by providing a measure that is more meaningful because it excludes a non-recurring non-cash item that resulted from an amendment of the Product Supply Agreement and accordingly is more comparable to prior periods and indicative of consistent operating income items. 3. Operating cash flow, excluding the income tax payment on divested centers:

We believe that operating cash flow excluding the income tax payment on divested centers enhances a user's understanding of our normal operating cash flows for these periods by providing a measure that is more meaningful because it excludes non-recurring transactions that can cause unusual fluctuations in our operating cash flows and accordingly is more comparable to prior periods and indicative of consistent operating cash flow items. This measure is not a measure of financial performance under United States generally accepted accounting principles and should not be considered as an alternative to cash flows from operating, investing or financing activities, as an indicator of cash flows or as a measure of liquidity.

4. Free cash flow and free cash flow, excluding the income tax payment on divested centers:

Free cash flow represents net cash provided by operating activities less capital expenditures for routine maintenance and information technology. We believe free cash flow and free cash flow excluding the income tax payment on divested centers are useful adjuncts to cash flow from operating activities and other measurements under United States generally accepted accounting principles, since free cash flow is a meaningful measure of our ability to fund acquisition and development activities and

meet our debt service requirements and because free cash flow excluding the income tax payment on divested centers excludes a non-recurring transaction that can cause unusual fluctuations in our free cash flows and accordingly is more comparable to prior periods and indicative of consistent free cash items. Free cash flow and free cash flow excluding the income tax payment on divested centers are not measures of financial performance under United States generally accepted accounting principles and should not be considered as an alternative to cash flows from operating, investing or financing activities, as an indicator of cash flows or as a measure of liquidity.
