

DaVita Kidney Care Observes Men's Health Month

Company recognizes the importance of pre-emptive health care

DENVER, June 26, 2015 /PRNewswire/ -- [DaVita Kidney Care](#), a division of DaVita HealthCare Partners Inc. (NYSE: DVA) and a leading provider of kidney care services, recognizes the month of June as National Men's Health Month and the importance of bringing awareness to the health care issues that affect men.

"Kidney disease is the ninth leading cause of death in the United States and men with kidney disease are more likely than women to progress into kidney failure," said John Wigneswaran, M.D., vice president of clinical affairs for hospital services for DaVita Kidney Care. "It's important for everyone to know their individual risk for developing kidney disease and the steps for preventive care."

National Men's Health Month was established in June 1994 to raise awareness of the health care issues affecting men. Of the 26 million Americans with kidney disease, men are more likely than women to develop chronic kidney disease (CKD) and are [50 percent more likely](#) to develop end stage renal disease. DaVita Kidney Care offers educational [tips and resources](#) on DaVita.com that are designed to help individuals slow the progression or even stop kidney disease from reaching end stage.

DaVita Kidney Care encourages the general public to go to [Davita.com/LearnYourRisk](#) to take the 60-second CKD risk quiz. It is also important for those at risk to discuss [treatment](#) and [preventative care](#) options with their care team.

To honor its commitment to the men and women who care for its patients, DaVita HealthCare Partners encourages its teammates to participate in Village Vitality, a benefits and wellness program. The Village Vitality programs offer a variety of wellness initiatives to empower teammates to take charge of their health. A total of [35,500 teammates](#) and their family members use the Village Vitality program.

One Village Vitality initiative is Match the Mayor – where mayor and CEO of DaVita HealthCare Partners, Kent Thiry, champions a six-week health program that challenges teammates, friends and family to match him in healthy eating and/or exercise minutes. This program helps inspire people to achieve better health wellness and to create long-lasting, healthy habits.

About DaVita Kidney Care

DaVita Kidney Care is a division of DaVita HealthCare Partners Inc., a Fortune 500® company that, through its operating divisions, provides a variety of health care services to patient populations throughout the United States and abroad. A leading provider of dialysis services in the United States, DaVita Kidney Care treats patients with chronic kidney failure and end stage renal disease. DaVita Kidney Care strives to improve patients' quality of life by innovating clinical care, and by offering integrated treatment plans, personalized care teams and convenient health-management services.
