

# DaVita Inc. 3rd Quarter 2016 Results

DENVER, Nov. 2, 2016 /PRNewswire/ -- DaVita Inc. (NYSE: DVA) today announced results for the quarter ended September 30, 2016. Net income attributable to DaVita Inc. for the three months ended September 30, 2016 was \$571 million, or \$2.76 per share, which included a gain on changes in ownership interest upon the formation of the Asia Pacific dialysis joint venture (APAC JV), as discussed below.

Adjusted net income attributable to DaVita Inc. for the three months ended September 30, 2016 excluding this item was \$197 million, or \$0.95 per share.

Net income attributable to DaVita Inc. for the nine months ended September 30, 2016 was \$722 million, or \$3.48 per share, which included goodwill impairment charges related to certain DaVita Medical Group (DMG, formerly known as HealthCare Partners or HCP) reporting units, a gain on the APAC JV ownership changes, a gain on the sale of a portion of our Tandigm ownership interest, a loss on the sale of our DMG Arizona business, and an estimated accrual for damages and liabilities associated with our DMG Nevada hospice business.

Adjusted net income attributable to DaVita Inc. for the nine months ended September 30, 2016 excluding these items was \$597 million, or \$2.88 per share.

Additionally, adjusted net income attributable to DaVita Inc. for the three and nine months ended September 30, 2016, excluding the items listed above from their respective periods and excluding the amortization of intangible assets associated with acquisitions, was \$223 million, or \$1.08 per share, and \$675 million, or \$3.25 per share, respectively.

Net income attributable to DaVita Inc. for the three months ended September 30, 2015 was \$216 million, or \$1.00 per share.

Net income attributable to DaVita Inc. for the nine months ended September 30, 2015 was \$276 million, or \$1.27 per share, which included debt redemption charges, goodwill impairment charges, a settlement charge related to a private civil suit and a related tax adjustment. Adjusted net income attributable to DaVita Inc. for the nine months ended September 30, 2015 excluding these items was \$614 million, or \$2.82 per share.

Additionally, adjusted net income attributable to DaVita Inc. for the three and nine months ended September 30, 2015, excluding the items listed above from their respective periods and excluding the amortization of intangible assets associated with acquisitions, was \$241 million, or \$1.11 per share, and \$691 million, or \$3.18 per share, respectively.

For reconciliations of these non-United States generally accepted accounting principles (GAAP) financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the attached reconciliation schedules.

## ***Financial and operating highlights include:***

- **Cash Flow:** For the rolling twelve months ended September 30, 2016, operating cash flow was \$1,918 million and free cash flow was \$1,339 million. For the three months ended September 30, 2016, operating cash flow was \$536 million and free cash flow was \$386 million. For the definition of free cash flow, see Note 4 to the reconciliation of non-GAAP measures.
- **Operating Income and Adjusted Operating Income:** Operating income for the three months ended September 30, 2016 was \$819 million, which included a gain on the APAC JV ownership changes and an adjustment to reduce a receivable associated with the DMG acquisition escrow provision relating to an income tax item, as discussed below. Adjusted operating income for the three months ended September 30, 2016 excluding these items was \$472 million. Operating income for the nine months ended September 30, 2016 was \$1,513 million including goodwill impairment charges, a gain on the APAC JV ownership changes, a gain on the sale of a portion of our Tandigm ownership interest, a loss on the sale of our DMG Arizona business, an adjustment to reduce a receivable associated with the DMG acquisition escrow provision relating to an income tax item, and the estimated DMG Nevada hospice accrual. Adjusted operating income for the nine months ended September 30, 2016 excluding these items was \$1,405 million.

In connection with the acquisition of DMG, we recorded a receivable against the acquisition escrow balance to offset specific potential tax liabilities. Certain of these potential tax liabilities expired, resulting in the reduction of this asset during the third quarter of 2016. This negatively impacted operating income by \$27 million and is included in our general and administrative expenses. The reduction in operating income was directly offset by a reduction in income tax expense due to the expiration of the corresponding tax liability.

Operating income for the three months ended September 30, 2015 was \$509 million. Operating income for the nine months ended September 30, 2015 was \$926 million, which included a goodwill impairment charge of \$4 million and a settlement charge related to a private civil suit. Adjusted operating income for the nine months ended September 30, 2015, excluding these items was \$1,425 million.

- **Gain on Changes in Ownership Interests:** Effective August 1, 2016, we consummated an agreement with Khazanah Nasional Berhad (Khazanah) and Mitsui and Co., Ltd (Mitsui) whereby Khazanah and Mitsui subscribed to invest a total of \$300 million over three years in exchange for a 40% total equity interest in our Asia Pacific dialysis business. Khazanah and Mitsui each made related initial investments of \$50 million in this business on August 1, 2016. As a result of this transaction, we deconsolidated our Asia Pacific dialysis business at that time and recognized a non-cash gain of \$374 million on our retained interest in the APAC JV.
- **Trade Name:** As of September 1, 2016, we committed to a plan to change the HCP trade name to DMG. As a result of this decision, we began to accelerate the amortization of the remaining carrying value of the HCP trade name which resulted in additional amortization of \$2 million for the three months ended September 30, 2016. This additional non-cash amortization will continue at a rate of approximately \$7 million per quarter through the first quarter of 2019.
- **Volume:** Total U.S. dialysis treatments for the third quarter of 2016 were 6,887,992, or 87,190 treatments per day, representing a per day increase of 4.2% over the third quarter of 2015. Normalized non-acquired treatment growth in the third quarter of 2016 as compared to the third quarter of 2015 was 4.4%.

The number of member months for which DMG provided care during the third quarter of 2016 was approximately 2.3 million, of which approximately 1.0 million, 1.0 million and 0.3 million related to Medicare, commercial and Medicaid members, respectively.

- **Effective Tax Rate:** Our effective tax rate was 14.6% and 30.2% for the three and nine months ended September 30, 2016, respectively. The effective tax rate attributable to DaVita Inc. was 15.4% and 33.6% for the three and nine months ended September 30, 2016, respectively. Our effective tax rate for the three and nine months ended September 30, 2016 was impacted by the gain on the APAC JV ownership changes, an adjustment related to the reduction in a receivable associated with the DMG acquisition escrow provision relating to an income tax item, and the amount of third-party owners' income attributable to non-tax paying entities. Additionally, the effective tax rate for the nine months ended September 30, 2016 was impacted by the non-deductible goodwill impairment charges, the loss on the sale of our DMG Arizona business and the non-deductible estimated DMG Nevada hospice accrual. The adjusted effective tax rate attributable to DaVita Inc. for the three and nine months ended September 30, 2016, excluding these items from their respective periods was 40.0% and 39.0%, respectively.

We currently estimate our 2016 adjusted effective tax rate attributable to DaVita Inc. to be approximately 39.0%, excluding the gain on the APAC JV ownership changes, goodwill impairment charges, the loss on the sale of our DMG Arizona business, the estimated DMG Nevada hospice accrual and the income tax adjustment related to the reduction in a receivable associated with the DMG acquisition escrow provision relating to an income tax item.

We do not provide guidance for our estimated 2016 effective tax rate attributable to DaVita Inc. on a GAAP basis nor a reconciliation of that forward-looking non-GAAP financial measure to the most directly comparable GAAP financial measure on a forward-looking basis because we are unable to predict certain items contained in the GAAP measure without unreasonable efforts.

- **Center Activity:** As of September 30, 2016, we provided dialysis services to a total of approximately 199,000 patients at 2,457 outpatient dialysis centers, of which 2,318 centers were located in the United States and 139 centers were located in 11 countries outside of the United States. During the third quarter of 2016, we opened a total of 28 new dialysis centers and closed three dialysis centers in the United States. We also acquired eight dialysis centers and opened four new dialysis center outside of the United States.
- **Share Repurchases:** During the three months ended September 30, 2016, we repurchased a total of 6,240,694 shares of our common stock for \$407 million, or an average price of \$65.15 per share. During the nine months ended September 30, 2016, we repurchased 9,930,432 shares of our common stock for \$656 million, or an average price of \$66.07 per share. We also repurchased 3,367,024 shares of our common stock for \$212 million, or an average price of \$63.07 per share, subsequent to September 30, 2016. As a result of these transactions, as of October 31, 2016 we have a total of approximately \$881 million in outstanding Board repurchase authorizations.

## **Outlook**

The following forward-looking measures and the underlying assumptions involve significant risks and uncertainties, including those described below, and actual results may vary significantly from these current forward-looking measures. We do not

provide guidance for consolidated operating income, Kidney Care operating income or DMG operating income on a GAAP basis nor a reconciliation of those forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures on a forward-looking basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These non-GAAP financial measures do not include certain items, including goodwill impairment charges, the gain on the sale of a portion of our Tandigm ownership interest, the loss on the sale of our DMG Arizona business, the estimated accrual associated with the DMG Nevada hospice business, an adjustment related to the reduction in a receivable associated with the DMG acquisition escrow provision relating to an income tax item and a gain on the APAC JV ownership changes.

- We are updating our adjusted consolidated operating income guidance for 2016 to be in the range of \$1.810 billion to \$1.870 billion.

Our previous adjusted consolidated operating income guidance for 2016 was in the range of \$1.785 billion to \$1.875 billion.

- We are updating our adjusted operating income guidance for Kidney Care for 2016 to be in the range of \$1.695 billion to \$1.725 billion.

Our previous operating income guidance for Kidney Care for 2016 was in the range of \$1.675 billion to \$1.725 billion.

- We are updating our adjusted operating income guidance for DMG for 2016 to be in the range of \$115 million to \$145 million.

Our previous adjusted operating income guidance for DMG for 2016 was in the range of \$110 million to \$150 million.

- We are updating our consolidated operating cash flow for 2016 to be in the range of \$1.750 billion to \$1.850 billion.

Our previous consolidated operating cash flow for 2016 was in the range of \$1.600 billion to \$1.750 billion.

We will be holding a conference call to discuss our results for the third quarter ended September 30, 2016 on November 2, 2016 at 5:00 p.m. Eastern Time. To join the conference call, please dial (877) 918-6630 from the U.S. or (517) 308-9087 from outside the U.S. A replay of the conference call will be available on our website at [investors.davita.com](http://investors.davita.com), for the following 30 days.

*This release contains forward-looking statements within the meaning of the federal securities laws, including statements related to our guidance and expectations for our 2016 consolidated operating income, our 2016 Kidney Care operating income, DMG's 2016 operating income, our 2016 consolidated operating cash flows, our 2016 effective tax rate attributable to DaVita Inc. and our estimated charges and accruals. Factors that could impact future results include the uncertainties associated with the risk factors set forth in our SEC filings, including our annual report on Form 10-K for the year ended December 31, 2015, our subsequent quarterly and annual reports, and our current reports on Form 8-K. The forward-looking statements should be considered in light of these risks and uncertainties.*

*These risks and uncertainties include, but are not limited to, and are qualified in their entirety by reference to the full text of those risk factors in our SEC filings relating to:*

- *the concentration of profits generated by higher-paying commercial payor plans for which there is continued downward pressure on average realized payment rates, and a reduction in the number of patients under such plans, which may result in the loss of revenues or patients, and the extent to which the ongoing implementation of healthcare exchanges or changes in regulations or enforcement of regulations regarding the exchanges results in a reduction in reimbursement rates for our services from and/or the number of patients enrolled in higher-paying commercial plans,*
- *a reduction in government payment rates under the Medicare End Stage Renal Disease program or other government-based programs,*
- *the impact of the Medicare Advantage benchmark structure,*
- *risks arising from potential federal and/or state legislation that could have an adverse effect on our operations and profitability,*
- *changes in pharmaceutical or anemia management practice patterns, payment policies, or pharmaceutical pricing,*
- *legal compliance risks, including our continued compliance with complex government regulations and the provisions of our current corporate integrity agreement and current or potential investigations by various government entities and related government or private-party proceedings, and restrictions on our business and operations required by our corporate integrity agreement and other settlement terms, and the financial impact thereof,*
- *continued increased competition from large- and medium-sized dialysis providers that compete directly with us,*

- our ability to maintain contracts with physician medical directors, changing affiliation models for physicians, and the emergence of new models of care introduced by the government or private sector, that may erode our patient base and reimbursement rates, such as accountable care organizations, independent practice associations and integrated delivery systems,
- our ability to complete acquisitions, mergers or dispositions that we might be considering or announce, or to integrate and successfully operate any business we may acquire or have acquired, including DMG, or to expand our operations and services to markets outside the United States, or to businesses outside of dialysis and DMG's business,
- the variability of our cash flows,
- the risk that we might invest material amounts of capital and incur significant costs in connection with the growth and development of our international operations, yet we might not be able to operate them profitably anytime soon, if at all,
- risks arising from the use of accounting estimates, judgments and interpretations in our financial statements,
- the risk that laws regulating the corporate practice of medicine could restrict the manner in which DMG conducts its business,
- the risk that the cost of providing services under DMG's agreements may exceed our compensation,
- the risk that reductions in reimbursement rates, including Medicare Advantage rates, and future regulations may negatively impact DMG's business, revenue and profitability,
- the risk that DMG may not be able to successfully establish a presence in new geographic regions or successfully address competitive threats that could reduce its profitability,
- the risk that a disruption in DMG's healthcare provider networks could have an adverse effect on DMG's business operations and profitability,
- the risk that reductions in the quality ratings of health maintenance organization plan customers of DMG could have an adverse effect on DMG's business, or
- the risk that health plans that acquire health maintenance organizations may not be willing to contract with DMG or may be willing to contract only on less favorable terms.

We base our forward-looking statements on information currently available to us at the time of this release, and we undertake no obligation to update or revise any forward-looking statements, whether as a result of changes in underlying factors, new information, future events or otherwise.

This release contains non-GAAP financial measures. For reconciliations of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, see the attached reconciliation schedules. For the reasons stated in the reconciliation schedules, we believe our presentation of non-GAAP financial measures provides useful supplemental information for investors.

---

(1) These are non-GAAP financial measures. For a reconciliation of these non-GAAP financial measures to their most comparable measure calculated and presented in accordance with GAAP, and for a definition of adjusted amounts, see attached reconciliation schedules.

(2) Consolidated percentages of revenues are comprised of the dialysis and related lab services business, DMG's business and other ancillary services and strategic initiatives. General and administrative expenses includes certain corporate support and long-term incentive compensation, as well as an adjustment to reduce a receivable associated with the DMG acquisition escrow provision relating to an income tax item for the three and nine months ended September 30, 2016 and the estimated DMG Nevada hospice accrual for the nine months ended September 30, 2016.

(3) The reported balance sheet amounts at September 30, 2016, June 30, 2016, and September 30, 2015, excludes \$83.9 million, \$87.9 million and \$68.7 million, respectively, of a debt discount associated with our Term Loan A, Term Loan B and senior notes, and other deferred financing costs.

(4) The Term Loan B is subject to a LIBOR floor of 0.75%. Because actual LIBOR, for all periods presented above, was lower than this embedded LIBOR floor, the interest rate on the Term Loan B is set at its respective floor. At such time as the actual LIBOR-based variable component of our interest rate exceeds 0.75% on the Term Loan B, we will then be subject to LIBOR-based interest rate volatility on the LIBOR variable component of our interest rate on all of the Term Loan B. However, we are limited to a maximum rate of 3.50% on the outstanding principal debt on the Term Loan B as a result of interest rate cap agreements. The Term Loan A bears interest at LIBOR plus an interest margin of 1.75%. We are limited to a maximum rate of 3.50% on \$78.8 million of the Term Loan A as a result of interest rate cap agreements. In addition, the uncapped portion of the Term Loan A, which is subject to the variability of LIBOR, is \$803 million.

(5) Adjusted operating income margin is a calculation of adjusted operating income divided by consolidated net revenues.

(6) Ratio of adjusted operating income to total care dollars under management is a calculation of adjusted operating income divided by total care dollars under management.

**DAVITA INC.**  
**SUPPLEMENTAL FINANCIAL DATA—continued**  
**(unaudited)**  
**(dollars in thousands)**

**Note 1: Calculation of the Leverage Ratio**

Under the senior secured credit facilities (Credit Agreement), the leverage ratio is defined as all funded debt plus the face amount of all letters of credit issued, minus cash and cash equivalents, including short-term investments, divided by "Consolidated EBITDA". The leverage ratio determines the interest rate margin payable by the Company for its Term Loan A and revolving line of credit under the Credit Agreement by establishing the margin over the base interest rate (LIBOR) that is applicable. The following leverage ratio was calculated using "Consolidated EBITDA" as defined in the Credit Agreement. The calculation below is based on the last twelve months of "Consolidated EBITDA", pro forma for routine acquisitions that occurred during the period. The Company's management believes the presentation of "Consolidated EBITDA" is useful to users to enhance their understanding of the Company's leverage ratio under its Credit Agreement. The leverage ratio calculated by the Company is a non-GAAP measure and should not be considered a substitute for debt to net income attributable to DaVita Inc., net income attributable to DaVita Inc. or total debt as determined in accordance with United States generally accepted accounting principles (GAAP). The Company's calculation of its leverage ratio might not be calculated in the same manner as, and thus might not be comparable to, similarly titled measures by other companies.

	<b>Rolling twelve months ended September 30, 2016</b>
Net income attributable to DaVita Inc	\$ 716,148
Income taxes	477,844
Interest expense	384,188
Depreciation and amortization	694,805
Goodwill and other intangible asset impairment charges	459,169
Noncontrolling interests and equity investment income, net	180,858
Stock-settled stock-based compensation	43,212
Other	(321,793)
<b>"Consolidated EBITDA"</b>	<b>\$ 2,634,431</b>
	<b>September 30, 2016</b>
Total debt, excluding debt discount and other deferred financing costs of \$83.9 million	\$ 9,208,653

**(dollars in thousands except for per share data)**

In addition, we have excluded amortization of intangible assets associated with acquisitions from our adjusted net income attributable to DaVita Inc., net of tax, and from our adjusted diluted net income per share attributable to DaVita Inc. as we believe this presentation enhances a user's understanding of our operating results for these periods by providing a different reflection of the Company's operating performance since it excludes the amortization of intangible assets that relate to the fair value measurement of acquired intangible assets associated with our acquisitions, and accordingly is indicative of consistent adjusted net income excluding amortization of acquired intangibles, attributable to DaVita Inc. and diluted net income per share attributable to DaVita Inc. These measures are not measures of financial performance under GAAP and should not be considered as an alternative to net income attributable to DaVita Inc. and diluted net income per share attributable to DaVita Inc.

**Adjusted net income and adjusted diluted net income per share attributable to DaVita Inc., further adjusted to exclude the amortization of intangible assets associated with acquisitions, net of tax:**

**2. Adjusted operating income.**

Adjusted operating income is defined as operating income before certain items we do not believe are indicative of ordinary results, including a gain on the APAC JV ownership changes, goodwill impairment charges, a gain on the sale of a portion of our Tandigm ownership interest, a loss on the sale of our DMG Arizona business, an adjustment to reduce a receivable associated with the DMG acquisition escrow provision relating to an income tax item, estimated accruals for damages and liabilities associated with our DMG Nevada hospice business, and a settlement charge related to a private civil suit.

We use adjusted operating income as a measure to assess operating and financial performance. We believe that this measure enhances a user's understanding of the normal operating income and of our consolidated enterprise and of our individual reportable segments.

Adjusted operating income is not a measure of financial performance computed in accordance with GAAP and should not be considered in isolation nor as a substitute for operating income, net income, cash flows from operations, or other statement of operations or cash flow data prepared in conformity with GAAP, or as a measure of profitability or liquidity. In addition, the calculation of adjusted operating income is susceptible to varying interpretations and calculations, and the amounts presented may not be comparable to similarly titled measures of other companies. Adjusted operating income may not be indicative of historical operating results, and we do not intend these calculations to be predictive of future results of operations or cash flows.

**3. Effective income tax rates and adjusted effective income tax rates.**

We believe that reporting the effective income tax rate attributable to DaVita Inc. as well as the adjusted effective income tax rate attributable to DaVita Inc., excluding a gain on the APAC JV ownership changes, goodwill impairment charges, a gain on the sale of a portion of our Tandigm ownership interest, a loss on the sale of our DMG Arizona business, an adjustment to reduce a receivable associated with the DMG acquisition escrow provision relating to an income tax item, and estimated accruals for damages and liabilities associated with our DMG Nevada hospice business, net of tax, enhances a user's understanding of DaVita Inc.'s effective income tax rate and DaVita Inc.'s adjusted effective income tax rate for the periods presented because it excludes noncontrolling owners' income that primarily relates to non-tax paying entities and certain non-deductible charges which we do not believe are indicative of our ordinary results, and, therefore, these adjusted measures are meaningful to a user to fully understand the related income tax effects on DaVita Inc.'s operating results. These are not measures under GAAP and should not be considered as an alternative to the effective income tax rate calculated in accordance with GAAP.

Effective income tax rate as compared to the effective income tax rate attributable to DaVita Inc. is as follows:

**4. Free cash flow.**

Free cash flow represents net cash provided by operating activities less distributions to noncontrolling interests and capital expenditures for routine maintenance and information technology. We believe free cash flow is a useful adjunct to cash flow from operating activities and other measurements under GAAP, since free cash flow is a meaningful measure of our ability to fund acquisitions and development activities and meet our debt service requirements. In addition, free cash flow excluding distributions to noncontrolling interests provides a user with an understanding of free cash flows that are attributable to DaVita Inc. Free cash flow is not a measure of financial performance under GAAP and should not be considered as an alternative to cash flows from operating, investing or financing activities, as an indicator of cash flows or as a measure of liquidity.

	Three months ended			Nine months ended

**(dollars in thousands)**

**5. Total care dollars under management.**

In California, as a result of our managed care administrative services agreements with hospitals and health plans, DMG does not assume the direct financial risk for institutional (hospital) services in most cases, but is responsible for managing the care dollars associated with both the professional (physician) and institutional services being provided for the Per Member Per Month (PMPM) fee attributable to both professional and institutional services. In cases where DMG does not assume the direct financial risk, DMG recognizes the surplus of institutional revenue less institutional expense as DMG net revenue recorded as capitated revenues. In addition to revenues recognized for financial reporting purposes, DMG measures its total care dollars under management, which includes the PMPM fee payable to third parties for institutional services where DMG manages the care provided to its members by the hospitals and other institutions, which are not included in GAAP revenues. DMG uses total care dollars under management as a supplement to GAAP revenues as it allows DMG to measure profit margins on a comparable basis across both the global capitation model (where DMG assumes the full financial risk for all services, including institutional services) and the risk sharing models (where DMG operates under managed care administrative services agreements where DMG does not assume the full risk). DMG believes that presenting amounts in this manner is useful because it presents its operations on a unified basis without the complication caused by models that DMG has adopted in its California market as a result of various regulations related to the assumption of institutional risk. Total care dollars under management is not a measure of financial performance computed in accordance with GAAP and should not be considered in isolation or as a substitute for revenues calculated in accordance with GAAP. Total care dollars under management includes PMPM payments received from third parties that are recorded net of expenses in our accounting records. The following table reconciles total care dollars under management to medical revenues for the periods indicated.

	Three months ended			Nine months ended
	September 30, 2016	June 30, 2016	September 30, 2015	September 30, 2016
